TWC Enterprises Limited Announces Renewal of Normal Course Issuer Bid

TWC Enterprises Limited (“TWC”) today announced that the Toronto Stock Exchange (the “TSX”) has accepted a notice filed by TWC of its intention to make a normal course issuer bid through the facilities of the TSX or alternative Canadian trading systems.

The notice provides that TWC may, during the twelve-month period commencing September 20, 2017 and ending September 19, 2018 purchase up to 1,367,277 common shares (“Common Shares”) in total, being approximately 5% of the issued and outstanding Common Shares. The price that TWC will pay for any such Common Shares will be the market price at the time of acquisition. Management of TWC will determine the actual number of Common Shares that may be purchased and the timing of any such purchases.

Under the current normal course issuer bid due to expire September 19, 2017, TWC sought to purchase up to 1,367,240 common shares through the facilities of the TSX or alternative Canadian trading systems. No Common Shares were purchased for cancellation during the last twelve months. As of September 8, 2017 there were 27,345,540 Common Shares outstanding. TWC average daily trading volume for the prior six months is 2,489. Daily purchases will be limited to 1,000 common shares, other than block purchase exceptions.

TWC believes that its Common Shares have been trading in price ranges which do not adequately reflect their value in relation to the business of TWC and its future business prospects. As a result, depending upon future price movements and other factors, TWC believes that its outstanding Common Shares may represent an attractive investment. Furthermore, the purchases are expected to benefit all persons who continue to hold Common Shares by increasing their proportionate interest in TWC. All Common Shares purchased by TWC under the normal course issuer bid will be cancelled.
